REVIEWS.

THE LADY KILLER. By H. de Vore Stacpoole. 1. Fisher Unwin. 2/6. This romance deals with some of the despicable sides of Bohemian life. Its atmosphere is Anglo-Italian. Within its few pages, it contrives to introduce the most sordid side of the Italian, and the weakest side of the English character. The poor plot ended in a misorable failure as it doserved to do. As to the method employed to make a man come down as low as the title of the book, its saturnine weakness is only surpassed by its gross improbability. Poverty of resource, impossibility of situation, cunningness of imbecility, bombast, and petty intrigue make up a poor covering for the failures, suicides, sudden deaths to which the hapless author is driven. It is difficult to understand the motif, for a book of this kind. The author betrays a knowledge of human nature in some phases, and at times a command of language, which would enable him to produce a volume really worth reading.

HE OUTCAST AND OTHER STORIES, BY Maxim Gorky. T. Fisher Unwin, London, 2/6.

The name-tale is the longest and strongest of the three. The scene is laid in a Russian doss-house. Here drift the ne'erfilthy bodies. The recking air is further burdened with ravings against the successful and prosperous, spiced with humanistic philosophy from the 'Captain,' The story has a lurid light; but by this nocturne the reader will obtain a correct impression of the modern Russian Sansculottes. Waiting for the Ferry' brings out the stolidity of the proletarians, the nervoless submission of the oppressed peasantry, and the rough-and-ready vehemence of their superiors, whose only social remedy is more oppression and repression. The Affair of the Clasps' takes us to the callons brutality of the Russian casual in contrast with a well-meaning but strait-laced prim old

Christian lady. The translations seem to be well done and were worth doing. Maxim Gorky (Maximus the Bitter) is the apt pseudonym of the latest Russian novelist, A. M. Pyeshkoy. The taste for this kind of Bitter needs to be acquired. How to deal with the submerged tenth' is a bitter question in Russia as well as elsewhere. These distorted ethics of the tramp are calculated to upset the complacency of bourgois souls.

THE ROMMANY STONE. By J. H. Yoxall,

M.P. Published by Longmans. 1902. Those who have read 'Aywin' and enjoyed it, will be rejoiced to handle this romance. It takes us back to the dawn of the last century and sets us in the rockiest part of Derbyshire moorland, within a short day's walk of Chatsworth. Here among the quiet farmers, growing rapidly wealthy through the war-prices of corn, there is one girl-London-educated-who builds castles in the air. But her prince arrives in the personof a handsomesculptor, found to be chief of the gypsies and very closely related to an Italian: Cardinal, Throwing over her farmer-lover, Dahlia is married clandcatinely to Aldo. In Rome many of her dreams are substantialized but a revolution and the incoming French dissipated all. London neither repairs fortune nor health. A discovered forgery sets the Bow Street runners on the track of consumptive, disheartened, fretful husband, with his still devoted wife. Reaching a gypsy haunt in Derbyshire, he is anxious to be rid of his wife, that the more easily he may escape to the wilds of the North. The former lover is sent for to conduct the hapless wife to her aged parents. At this point the events of the three days, here related, really begin. The action moves vigorously in this remantic syrie of Derbyshire. Interest is maintained on every page. The brogue of Derbyskire is hum-ourously mixed with Rommany. Cockney and Yankee. The issue is worked up to with constant thrill. It is a good story well done. Mr Yoxall knows his Derby-HUMPHREY'S ESTATE & FINANCE shire (as a good M.P. for Derby should), his Gypsies,—and how to make the best of them with his pen. If this is his first venture of the kind, may there be more to

pointed to value all and several the land and bunding, buildings, motive power and fixed plant and machinery, trade tixtures, furniture, stock, etc, in, upon, and com-prising the works and premises situated at Wuchang in the Empire of China, and known as the property of Messrs. L. Vrard & Co.:-

This is to certify that we have examined and valued the above-described items taken as a current going concern as and upon the 19th September, 1902, and found the Bund of first-class construction and the machinery nearly new and in very good working order. And we hereby declare the sum of Th

512,400 Shanghai Sycee to be, in our opinion, the fair value thereof, exclusive of good will. We are, Dear Sirs,

Yours faithfully, (Signed) HUCHTING & PEARCE. Of the above-named Assets the following may properly call for some remark :-

### Intimations.

\* PROPERTY AT WITHING This faces the centre of the Hankow Bund and comprises 91,2285 at. metres: equal to about 140 mow of land (registered in the French Consulare at Hankow under Nos. 9, 10, 11 and 12), with 1,270 feet of frontage on the Yanstaze River, bunded by a stone-built and granite-topped scawall

constructed by T. T. C. Meyer, C.E. The Buildings consist of one mill, 5 large godowns and several out-houses, all brickbuilt and covering over 49,700 square feet. The area at the disposal of the Company would, however, still be sufficient for muci larger requirements, and oven the proposed additions and alterations in the capacity of the plant and the extension of buildings will leave ample room for future development. At a comparatively small cost very valuable landing accommodation could be

erected on the River, which at that place has over 30 feet of depth at low water. The Wuchang Works are fitted with a complete modern plant of the best make and quality for crushing and refining metal Ores, capable of turning out about 750 tons per week. There are 3 boilers and 3 engines of over 200-H.P., 4 large crashers and rollers, 4 American concentrating tables, 4 hydraulie clessitiers, 5 pumps,

The Vendors are the pioneers of the Mining industry in the Yangtze Valley, and are still the only Shippers of treated or refined Ores to Europe and the United Contractors for THE Supply of ALL States. They have very favourable contracts with the Hunan Board of Mining, under the provisions of which the concessionnaires have special rights and facilities granted to them in connection with the supply and shipment of Ores; the contracts provide for the working in joint account with the Hunan Beard of Mining, under conditions which have proved very satisfactory to both parties. There are also favour-F. H. Wong Sing-san, Esq., Tactai, Ex- able provisions for renowing and extending

> CONCESSIONS. The firm of L. Vrard & Co. have under their control a large number of Chinese Mining Concessions located in Hunan and the adjacent provinces. Sixteen of these Concessions are approved and confirmed by the competent Authorities in Hunan, and arrangements have been made with the Chinese holders for the transfer of their agreements with the Vendors to the Com-

these contracts.

Although no systematic development work up to the present has been carried out on these Concessions, they have been judiciously selected by experts from a very large number of prospected mining districts in what is believed to be the richest part of the Yangtszo Basin. The Vendors, having been the first in the field, have succeeded in securing some of the best and most coveted Chineso concessions, where the mineral ores are partly on the surface and promise an extremely successful and lucrative work-

ESTIMATE OF REVENUE. The present plant is capable of turning out 100 tons per diem of crushed and rofined Ores, but the capacity of the works and

their output could ensily be multiplied by the investment of about Tls. 31,000 for additional machinery. Taken at a low estimate the net profit for the Company on treated Ore is Tls. 6 per ton, so that if the trun-out be increased to only 1,000 per week, Tls. 6,000 per week, or Tls. 300,000 per annum, after payment of all expenses, will be carned. The agreements with the Hunan Board of Mining alone are, therefore, estimated as producing a revenue of about

30 per cent. per annum. This anticipated return is confirmed by the following certificate of Mr Arthur R. Leake, Chartered Accountant, who arrives at a slightly higher result :

Shanghai, 1st October, 1902. I have examined the Account Sales and documents relating to the output of A

the Vendors and the Hunan Board of Mines, and I wish to point out that, under existing circumstances and on a basis of a kow, at Tls. 27 per Fang ... -203,000 yearly output of ferty thousand tons, the 1,270 Feet stone-built Bund on Antimony agreement, as at present con-61,000 stituted, would expire in five years. In addition to this work it is intended to actively open up and work several of the Chinese Concessions on which the most valuable mineral deposits have been found, which include, in addition to the proved seams of Antimony, Zinc Ore, etc., the celebrated Silverlead are peculiar to those provinces. Chinese Swarming to Philippines.

The Manila Times of the 29th ult. says :- That big exodus of Chinese from Manils, which occcurred a few months ago, is in a fair way to turn about, judging from the outlook, in the form of an influx. The British steamer Diamante, which has just returned to this port from Hongkong, brought over 600 passengers from Amoy, and Captain Rodgers states there are myriads of celestials at the other end of the route awaiting transportation and admission to Manila. Many of these Chinese are entitled under the laws to return to the Philippines, and many more are waiting for admission under the proposed contract labor law, which it is hoped congress will pass at its next session.

### Disturbed South China.

The following translation of an Imperial Decree is taken from the N.-C. Daily News :-- Hsiz Yü-hsin is appointed Provincial Commander-in-Chief of Hupeh, and Su Yuan-ch'un (Marshal Su) is transferred from the Provincial Command-in-Ohief of Kuangtung to that of Kuangsi. Notes :- As will perhaps be recalled, the insurrection of secret-society men in Mr Bruce Robertson's Grandec ... Kuangai last year, owing to the fewness of modern arms of precision in their hands was not expected to be very formidable by the provincial high authorities of the Two Kuang. Just atthat time, bowever, Marshal Su got into trouble with his forces garrisoning Kuangtung province, through an attempt to disband some 10,000 of them without paying the men their arrears of pay, amounting to over six months' wages. The men first objected to be disbanded, having been enlisted for five years and with three years more, to go. In the second place, they wanted their six months' arrears paid first before they would listen to the subject of disbandment and hand over their arms, which are all Mausers of the latest type. Marshal Su then tried to overawe the mutinous troops into subjection by a display of force, demanding their arms before paying them their money. To his surprise, nearly one-half of the treeps who were with him turned round on the Marshal and joined the mutinous battalions, who forced him eventually to retreat. The mutineers then forced thir own regimental officers, on pain of death, to join. It was death, any way, to these officers. If they refused to join they would have been slain instanter by their own men; while if they went over to their General he would have made them his scapegoats and decapitated them before the whole army for not being able to control the mutineers. The muti- II. THE SHANGHAI ST. This formidable addition to the fighting forces of the insurgents has of course lengthened the rebellion down to the present day. Mr Barley's His Excellency ... Apparently, the powers that be in Peking consider Marshal Su to be primarily responsible for all this additional trouble, and for this reason have transferred him from Kuangtung to Kuangsi, with what ultimate success time alone will show.--

### LONDON LETTER.

(From Our Own Correspondent.) London, October 3. This week we have had Mr Gerald Balfour's bargain with the Cunard Company, and the declaration of peace between the Imperial Tobacco Company and its rivals from the other side. To the consumer, it seems well for them that they have come to an agreement to claimed ownership of the junks in an intershare the world between them, and not very bad for any one except the few | the plaintiffs, and Mr Grist (Messrs Wilkinretail tobacconists who 'had put their sake of prospective bonuses, which they the smoking world, there are firms enough of good standing outside the British Company (and therefore outside the new British American Company just registered) to give the competition necessary to hinder the Trust from excessively raising the price of a necessary of life upon us. One firm never run at any Meeting. Weight for inches as per scale. Entrance. used to put a 23d tobacco on the market, but that has gone and few wil miss it, but it would be a sin and smokers and a handful of millionaires, we are all on the side of the many. There seems to be a kind of a cycle in Saunders. such matters, -first the corner, then the pool and then the trust. Corners have been occasionally attempted in this country, and have always failed pools have sometimes succeeded, but outside the States, I know of no successful trust or pool that has fallen into of the Pony declared. The Stakes the autocratic hands of a syndicate. You may instance French tobacco, but

> The Cunard business is even a little harder to follow. Of course, it is very sweet and nice of Mr Morgan to undertake to maintain the purely British character of the fleet in the combination, and the Morgan boats are not to be subsidised while the Cunard is to have (and, let us hope, to carn) Noon £150,000 a year, but we should like to ask, what's his little game? He has forced the Government to bolster up one line with a subsidy to induce it to resist all temptations to belong to other nations, and we have too much respect for him to doubt that he will make something out of his philanthropy. Another puzzle lies in the question, how is it possible to defeat a big combination by bribing one company to stay outside it?

said that they would have lived longer if they had died sooner; they had the misfortune to outlive their best work and give painful examples of encroaching senility. Nothing of that kind can he said of Emile Zola, the tragedy of whose death is enhanced by the wretched triviality of the accident that oc casioned it: A badly ventilated stove stilled for ever the most expressive voice of France. It is probably true that Zola was not a thinker, but as an observer, recounting all he saw in minute detail, and perfectly fearless of the artificiality that calls itself art and the courteous concealment of facts that masquerades as morality, he enriched the world with photographic pictures of manners and men in all spheres of life. Frenchmen complained that La Terre and Germinal were untrue to the THE Steamship lives of artisans and peasants, and, for the honour of humanity, it is to be hoped they were: but the vivid realism and the elaborate workmanship have a Mile-Value, Tls. 200. Second Pony. given them a value as at least relatively true, assuring us that these things appeared thus to a skilled and conscientious observer. His intervention in the Dreyfus case proved that M. Zola had a claim to both epithets, and that he he was as bitterly hated by some as enthusiastically admired by others is good evidence that France is now poorer

by a great man. The least that can be said of the Shipka Pass commemoration is that is abominably bad manners. Bulgaria is still a vassal state to Turkey, and for the Russians to celebrate their victories on Bulgarian soil is as insulting to Turkey as Russia would consider the walls of Sebastopol. It is a part III. THE CHINA CUP.—One Mile.—Value, of the settled policy of the urbane and Via Ports of Call, WITHOUT TRAN-Tls. 200. Second Pony, Tls. 50. **<u>3China Coast Meteorological</u>** Hongkong Tides.

The Tide Table given below has been compiled by the Nautical Almanac Offi in London from the result of the analysis of observations taken by means of an a tomatic tide-recording machine in the W ter Police Basin at Tsim Sha Tsui durin the years 1887-8-9.

The zero of the table is Low Water O dinary Spring Tides, which has been foun to be 2 feet below mean sea level. To obtain the depth of water on the tid gauge at the Victoria Navai Yard add 5 f 7 in., and on the gauge at Lamont Dock Aberdeen, add 12 ft. 9 in. to the heigh

given in the table.
